

## PROFILE

Mark Ruiter (40 years old, married, two children and a proud citizen of Dordrecht)

I followed a number of vocational courses with a focus on metal and completed them with the Middle Technical School.

Over the years I have developed myself from being a welder to being in charge and manage a company. Along the way I worked as a process operator for cutting machines and I did work preparation.

My range of capacities is very wide. Because of that I have compiled this resume with relevant information for this position. You can find my whole work history on my personal website.

## Management

*A valuable addition to your company*

If you look for a manager, whether long or short-term, I am capable to easily and quickly take on that role, because of my open attitude towards people.

## WORK EXPERIENCE

### **BLC de Kruijf**, Operational Manager (interim)

*Okt 2018 – Dec 2019*

I started working at this company to temporarily support the ill owner Wim Bak. What seemed to be a burn-out, became a worse growing illness. In a short time, my position in this company changed from supporting to replacing Wim. In this period I managed ongoing cases, from calculation to invoicing and I eliminated administrative delays. The fact that Wim stored all the information in his head was a challenge for me. I started documenting everything to make sure that all the cases were laid down. Unfortunately, Wim passed away in the summer of 2019. Together with the relatives, I thought about how we could keep BLC, and the memory of Wim, alive

### **Rotterdam Steel Works**, Varous positions (freelance)

*Mei 2018 – Heden*

My range of tasks includes thinking along with the owner about matters related to business operation. My history within my own organisation and the long-term involvement in RSW give me lots of experience when it comes to business operation.

### **Thure Snijtechniek**, Owner

*Dec 2011 – Apr 2018*

I built this company from scratch. I executed all the tasks belonging to a single owner, often successfully, but sometimes I faced setbacks. This company grew to a turnover of 3.2 million euros and twelve employees within six years. This period taught me a lot and made me who I am now.

## CHARACTERISTICS

According to the Myers-Briggs Type Indicator (MBTI), my personality type is a 'defender' (ISFJ-A). I recognise myself in the following characteristics: detailed, conscientious, traditional, loyal, patient (not always...), organised, service-oriented, dedicated, protective, very precise and responsible.

## SKILLS

Microsoft Office, Windows, AutoCAD, Draftsight, Lantek, ProFirst, various ERP systems, PHP, MySQL, jQuery / Java
