

PROFILE

Mark Ruiter (40 years old, married, two children and a proud citizen of Dordrecht)

I followed a number of vocational courses with a focus on metal and completed them with the Middle Technical School.

Over the years I have developed myself from being a welder to being in charge and manage a company. Along the way I worked as a process operator for cutting machines and I did work preparation.

My range of capacities is very wide. Because of that I have compiled this resume with relevant information for this position. You can find my whole work history on my personal website.

A valuable addition to your company

There are various ways to organise, prepare, plan, execute and complete projects. I am very capable of managing this within the organisational culture. I could develop new procedures as well.

WORK EXPERIENCE

Over the years, I have developed and delivered many projects. They were all focussed on digitalisation based on my production background. All the projects are to be found on www.torza.nl

BLC de Kruijf, Operational Manager (interim)

Okt 2018 – Dec 2019

Within this company I fulfilled management tasks, but I was also responsible for the construction work. That includes: the development and accompaniment of construction work during the execution in the workshop and on location.

Rotterdam Steel Works, Various positions (freelance)

Mei 2018 – Heden

My range of tasks included accompanying complex projects. You can think of projects with extra operations or required certification.

Thure Snijtechniek, Owner

I built this company from scratch. Besides the tasks belonging to a single owner, part of my job was to develop all the projects including required certification. My responsibilities also included accompanying the execution of the project and customer delivery.
